

Web Adapter RS-485

User's guide

Product Description

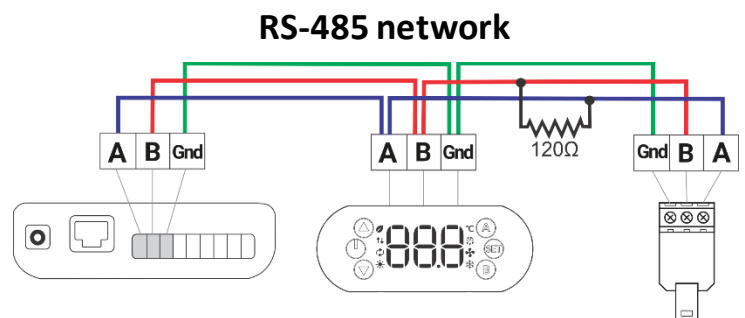

The product is a converter from the USB standard to the RS-485 standard and vice versa, designed for AGEON products.

Equipment that features USB and connectivity for ArcSys, but lacks RS-485, should use this converter to connect the equipment to the ArcSys network. Each controller requires one converter.

Specifications

Power supply	Exclusively through the mini USB port on the controllers.
Compatibility	"A" series controllers
Connection	Mini USB
Dimensions	(12 x 15 x 34) mm

Product installation

- Connect the device to the mini USB input on the controller.
- Interconnect the A, B, and GND terminals of the adapter to the corresponding terminals on the Web Server iSX10 v4 (ArcSys).
- The Web Server iSX10 v4 (ArcSys) supports up to 32 devices on the same network, including adapters and/or WEB controllers.

Package content

- ✓ 1 WEB Adapter RS-485;
- ✓ 1 WEB Adapter RS-485 user's guide.
